

**IN THE SPECIFICATION**

Please replace the paragraph beginning at line 18 of page 1 with the following amended paragraph:

---Generally, a guardrail 1 mounted on a road, as shown in Fig. 1, is installed with light reflectors 2, as disclosed in Korean Utility Model Publication No. ~~1996-0006168~~ 1996-0006188 (Publication Date: July 22, 1996), filed in the Korean Intellectual Property Office by this applicant and now registered. The light reflector 2 reflects light emitted from headlights of a vehicle driving on the road at night, helping the driver to confirm the position where the guardrail is mounted on the road and the road conditions. Thus, the driver can drive the vehicle safely.---
